Journalists about Journalism

Sissy Alonistiotou - salonistiotou@gmail.com

Journalists about Journalism (<http://jai.gr>) has been developing for at least two years a central axis regarding news & media literacy for citizens and journalists. Fake news identification, misinformation analysis and examples of fact checking are the themes of the "first line" for us. Find here (<http://jai.gr/pii-imaste/>) a general description of the purposes of 'JAJ' (-don't panic! -) Scroll down to read it in english! This link (<http://jai.gr/category/fakenews/>) is the category Fake News and here (<http://jai.gr/simantikes-erevnes/rosia-ke-akra-aristera-stin-evropi/>) you can see one of your own texts "stolen" and translated into Greek by Yannis Mantzikos (international relations specialist).

Furthermore, close ties of SYRIZA government with Russia (and other movements) are against the freedom of expression the Greek media. Given this fact 'JAJ' has in terms of Western values a special meaning and importance for the freedom of the press.
